

ZARUverse Whitepaper

Version 1.0 — October 2025

Makese Holding Ltd. — London • New York • Tehran

1. Introduction

ZARUverse is a blockchain ecosystem rooted in mythic identity, modular multi-token architecture, and full global compliance. Developed by Makese Holding Ltd., it comprises seven independent digital assets, each with a distinct role in the on-chain economy.

2. Project Objectives

- Establish luxury-grade blockchain brands with symbolic identity
- Deliver secure infrastructure for investment, payments, and value storage
- Ensure full compliance with KYC, audit, and listing standards
- Enable sustainable liquidity through multi-token architecture and branded fee tiers

3. Token Overview

Symbol	Name	Role	Decimals	Max Supply
BTCBR	Bitcoin Brazil	Regional payment token	18	21,000,000
BITCOIN BR	Bitcoin BR Legacy	Symbolic Bitcoin variant	18	21,000,000
MAK1	Makese Token	Primary investment token	18	1,000,000,000,000

4. Technical Architecture

All tokens are deployed on Binance Smart Chain (BSC) using ERC-20 standards and modular architecture. Smart contracts include:

- Custom tokenization modules
- Liquidity pools with branded fee tiers
- TokenSaleRouters with full price and supply control
- Secure wallet messaging protocols to prevent phishing

5. Compliance & Audit

All assets undergo internal and external audits. KYC documents, registration certificates, and security reports are publicly accessible.

- Parent Company: Makese Holding Ltd.
- Official Email: zaru.verse@makese.site
- Primary Domain: <https://zaruverse.github.io>

6. Roadmap

- Token deployment and smart contract launch
- Brand registration and domain activation
- Listing on Gitcoin, DAOs, and global platforms
- Launch of mythic NFTs via ZARUX
- Custom liquidity pools with branded fee logic
- Listing on CoinGecko, CoinMarketCap, and major exchanges

7. Conclusion

ZARUverse is a mythic blockchain realm with precise architecture, global compliance, and luxury-grade branding. It is not just a financial ecosystem—it is a legendary identity built for global recognition.
